

SLOW LORIS PTE LTD

First inspired by the uniquely-designed messenger bags toggled by the residents in Amsterdam, Sarah seized this opportunity to develop the idea of mobile masterpieces. By simply engaging artists to create designs which can be displayed on a host of media, the 26-year-old conceived the birth of *Slow Loris*.

In her spirit to make her dreams come to realization, Sarah, a university graduate, dug out her savings and devoted all her time and effort to get Slow Loris up and running. In the process, she was compelled to make several hard decisions, such as engaging the appropriate suppliers. She has since hired 4 employees to manage her expanding business.

Youth Business Singapore (YBS) applauds Sarah's creativity and boldness. Hence, we have provided her with a loan of up to \$12,500 to improve her cash flow and financial position of this 1-year-old business. Furthermore, YBS has sourced a mentor, Miss Helen Chong, Vice President of Solomon Asset Management, to give invaluable advice to this young entrepreneur.

In addition, Sarah participated in an e-mentoring project for a year. It aims to help secondary school students seek good company on the Internet.

Slow Loris is set to value add Singapore's design community.
