

**Chay Yee Meng**  
**Chairman and Group CEO**  
**InfoWave Pte Ltd**

Mr. Chay Yee Meng, a Certified Public Accountant, began his working career as an Audit and Tax Accountant with Arthur Young & Company (now known as Ernst & Young).

In 1982, he joined General Motors Singapore Finance department for five years handling accounting, costing and managing systems implementation. In 1987, he was named Director and Financial Controller of SCI Manufacturing, a US based electronics manufacturing company. He was later named as SCI's Asia Regional Controller.

In 1992, Mr. Chay co-founded Natsteel Electronics Pte Ltd, taking over a company which was about to be liquidated. As founding director and CFO of the company, Chay and his team of management, successfully turned the company into strong profitability and continued to grow the company for the next five years. In 1997, Natsteel Electronic Ltd ( NEL ) launched the largest IPO in Singapore with a market capitalization in excess of of \$700 million. In 2000 NEL had become the 5<sup>th</sup> largest contract manufacturer in the world with a revenue of \$2billion with subsidiaries in China, Malaysia, Indonesia, Thailand, USA, UK, Hungary and Mexico. In 2001, NEL was taken private in a S\$4 billion deal and merged with US-based Solectron Technology, Inc. Chay the served as Solectron's Head of Finance, Asia-Pacific Region until 2003.

Mr. Chay also co-founded ECS Holdings Ltd, and served as Founding Director and CFO until ECS went IPO in 2001. ECS grew from a \$50m company into a \$2.5 billion in 2008 when Mr Chay left the company after a merger of ECS with another company.

In 2003, Mr. Chay co-founded InfoWave Group, an engineering company specialized in developing equipment and solutions using GPS, RFID and other wireless technologies. The company now focuses on security monitoring and planning, ERP for land and sea transport, and has exported products to many countries.

Mr Chay also holds directorship in the following companies :

- National Kidney Foundation
- Trek2000 Technology Ltd
- ST Electronics ( Info Security) pte ltd
- Nanofilm Technologies Intl Pte Ltd
